

Mobile App Dev – Software Development Project

أجرت • Ujret C2C Platform

Ujret is a cross-platform Mobile Application enabling you to get and provide services.

Ujret's Aim Is To Empower Local Handymen, Connect Communities

We believe in the power of every individual's unique story and skills. Our platform is dedicated to empowering local handyman service providers by connecting them with people who need their expertise

Ujret is more than just a service platform—it's a community where diverse individuals come together to help one another and enrich each other's lives. Join us in making life better, one connection at a time.
